RE: Docket No. 98N-1265

To Whom It May Concern,

As A consumer of a compound drug product that was prescribed for me by my Board Certified OBGYN for the proven successful treatment of bone loss in both hips, I implore you to allow the Pharmacy in the midwest to be able to provide me with this perscription. I have grown back much of my bone loss without side effects. I can provide you with test results upon request.

Please revise or recind your MOU because it severly restricts physicians and patients rights to obtain healthcare products from the provider of their choice and infringes on the rights of compounding pharmists to serve the publics medical needs.

Sincerely yours,

98N-1265

C2455
